Democratic Boys in Blue Reunion.

INDIANAPOLIS, Oct. 5.—The attendance at the Democratic mass meeting of the Democratic soldiers reunion is very large, comprising delegates from Chicago, Baltimore, Cincinnati, St. Louis and Louisville and from various points in Illinois, Ohio and Kentucky, and every section of Indiana. Kentucky sends the largest delegation from the outside States. The grand procession formed at 10 o'clock and was one hour passing any given point. The number in the procession is estimated at 6,000.

Speaking was held on three stands on the State house grounds and other places outside during the afternoon. At the principal stand Gov. Hendricks presided and spoke as follows:

Ladies and Gentlemen—You will be addressed by Gov. Palmer, of Illinois, and Gov. Curtin, of Pennsylvania; for myself I have only to express to the citizens of other States that are present, and to the soldiers from other States, a most cordial welcome for your presence on this very interesting occasion. (Applause.) You from other States are interested in the same questions that now so profoundly occupy the attention of the people of Indiana. The people of Indiana have decided that as far as it is within their power, they will have a purer government and will have greater economy in the administration of public affairs. I am very happy to welcome the soldiers from other States who are here in very large numbers, as I know, to join with the soldiers of Indiana upon this occasion in asserting the doctrine that the war being now over there shall be reunion between the people of the North and the people of the South, thus expressing your faith in the permanent union of the hearts of the people under the forms of the Constitution and your faith in purity of government and in economy of administration. I welcome you upon this occasion to the capital of Indiana. My fellow citizens, I now have the pleasure of introducing Gen. Palmer, of Illinois, who led some of the soldiers that are here in the bloody scenes of the war, and who will now address you. (Applause). The following were the principal speakers: Gov. Curtin, Gen. Farnsworth, Gen. McCandlish, Gen. John L. Palmer, Gen. Sigel, Gen. E. F. Bragg, Gen. Fitzhugh, Gen. Warren, Gen. McClernand, Gen. Parker and Gen. Bigley. At the principal stands the following resolutions were adopted:

WHEREAS, The soldiers and sailors of the country irrespective of party, race or nationality took an honorable and patriotic part in defending that country when threatened and in maintaining the integrity of American honor, and whereas issues then at stake have been forever settled by the results of that contest and placed beyond all controversy by the fundamental laws of the land, and whereas Republican leaders with disgraceful impudence, and in open defiance of truth arrogate to themselves the credit of suppressing the rebellion and maintaining the Union, and in open defiance of justice denounce all soldiers and sailors who now refuse to submit to their political opinions, as sympathizers with the rebellion, and falsifiers to the union cause, whereas the leaders of the party in power have endeavored by bitter partisan appeals to rekindle the animosities of the war, and postpone the free enjoyment of a glorious peace, therefore, be it

Resolved, By the Democratic soldiers and sailors of the United States in convention assembled, that while fully recognizing the gallant achievements of our armies and grateful to Almighty God for the victory of the Union cause, we do hereby in the interests of harmony and fellowship between the States and in the name of our comrades who died to secure these national blessings, enter an earnest and solemn protest against all attempts to revive the hatreds and prejudices engendered by the civil strife.

Resolved, That now, as during the period when war was in progress, in which the question was finally and irrevocably settled, we pronounce the doctrine of the right of secession a fatal heresy, without foundation or right, in our system of government, destructive of the best interests of the South and North, and while we are firm in our resolve to preserve the integrity of the National Government as settled by the stern achievements of the sword, we will act as soldiers who were engaged in honorable warfare, and recognizing the gallantry with which those lately in arms against us sought to maintain what we believe to be a fatal error to denounce the policy of the Republican party which permits the unlawful plundering of the South and seeks to perpetuate sectional prejudice in order to continue itself in power.

Resolved, That while we maintain that every citizen, without regard to race or color, should be protected in the full enjoyment of the right of suffrage we denounce the efforts of the administration to control the elections of certain States of this Union by the aid of the army as a dangerous innovation upon the rights of the people, unwarranted by law, and showing a determination upon the part of the Republican party to carry the coming Presidential election by force and fraud.

Resolved, That we return our thanks to the last House of Representatives for the passage of the bill equalizing the bounties of soldiers and sailors of the Union, and we denounce the Republican Senate for defeating the measure.

Resolved, That the hope and industry of the nation, now prostrated by the infamous legislation of the Republican party, whereby the people have been robbed of just compensation for labor, depends upon the success of the Democratic party, which alone can restore confidence to the masses and insure to labor fair remuneration for honest work.

Resolved, That in the widespread prostitution of official dignity in the debauchery and corruption of the civil service in the reign of iniquitous administration of all the South in mistaken and ruinous legislation on finance in consequent depression of commerce and industries, we have not recognized the signs of reviving welfare or legitimate wholesome and honest fruits of the war.

Resolved, That in the name of patriotism and to insure the pursuits of peace and a healthier tone of public morals, we do hereby demand a change of administration that a change of policy may result and to this end we invite the co-operation of all, without regard to party ties, who think the crisis has come when just legislation and rigor in public life can alone bring a wise and peaceful government.

Resolved, That the assumption that the Union was preserved by a party and not by the whole people, irrespective of party, is false, slanderous and unpatriotic; that it desecrates the living and dishonors the dead, and we solemnly reprobate the assumption.

Resolved, that in S. J. Tilden and T. A. Hendricks we recognize statesmen who have given assurances in their public careers of a will and a way to redeem the country from the control of rings, to prosecute plans in civil service reform, to restore the majesty of local self government on basis of the constitution, and insure the fruitful blessings of prosperity and peace, and we do hereby pledge them our hearty and undivided support.

Congratulatory telegrams were received from Abraham S. Hewitt, chairman of the National Democratic Executive Committee and from Hon. Durbin Ward of Ohio. The demonstrations were concluded by a torchlight procession to night.

The *Tribune's* Indianapolis special has the following interesting details of the proceedings there to day. An arch was erected across Washington street, on which a live American eagle was placed around his perch was the inscription: "I am safe in the hands of the Democracy." The bird did not appear to agree with this statement, for no sooner had the head of the procession passed under the arch than he broke loose from his fastenings and flew away. He was soon recaptured. A colored man from Detroit named Nichols, attracted more attention and applause than all the governors and generals put together. The delight of the Democrats to find they had a genuine darkey in their party knew no bounds. They cheered almost every sentence he uttered. One was proud to hold his hat and a dozen crowded around to put him in the hack.

Grand Torchlight Procession.

The Democratic uniformed club of this city had a grand torchlight parade to night. The procession was about two miles long, and contained several thousand torches. The spectacle was very brilliant, and was witnessed by a large crowd, who thronged along the line of march. There was also a brilliant display of fireworks from the dome of the court house.

BERLIN, Oct. 5.—The Staats Gerichtshof met to-day for the trial of Count Von Arnim, on a charge of high treason. As his illness was not legally attested the court on the demand of the public prosecutor, decided to proceed against him in contumacion. The court also decided that its proceedings should be private. The *Telegraph's* Berlin correspondent reports that the Powers are preparing a new scheme of mediation which will probably be of the character of an ultimatum.

LONDON, Oct. 5.—A later dispatch from Belgrade says the Porte's rejection of the peace proposals is received here with satisfaction.

Eastern War News.

LONDON, Oct. 5.—A Vienna correspondent to the *Standard* states that a communication from Paris declares that France will not participate in the naval demonstrations proposed by Russia.

Austria and England have declined the proposition of intervention.

A telegram from Belgrade says it is expected that Russia will present an ultimatum to be followed by a declaration of war. Negotiations will probably precede such action, as the treaty of Paris binds the signers in the event of a misunderstanding, to give the Powers an opportunity of mediation. Roumania will join the fortunes of Russia. She openly allows the passage of armed bodies through her territory. Prince Milan has written a letter to the Czar, expressing sorrow for having incurred the latter's displeasure in connection with the army's proclamation of himself as King.

The Turkish generals have resumed operations, but avoid Alexinatz and Belgrade, and are penetrating north into the eastern countries. This is the result of Russian proposals to Austria.

The Sclavonic commission at Constantinople report that a fearful catastrophe will befall Bulgaria unless intervention on the part of Russia is made before winter.

Austria is anxious for the acceptance of the peace programme by the Porte; but since the independent action of Russia, even an acceptance by the Porte of a programme so variously interpreted by its originators, would not offer any solution of the troubles. The Roumanian government keeps 2,000 soldiers ready to protect the country. Preparations are making to transport these troops to the Bessarabian frontier.

PARIS, Oct. 5.—Henry Jerome Berline, pianist and composer is dead.

WEST INDIES.

Cuban Revolutionary News.

KEY WEST, Oct. 5.—The latest Havana news states that the insurgent general, Vicente Garcia, before evacuating Las Tunas burned the whole place and escorted the inhabitants sick and wounded, to some distance. The garrison were taken along as prisoners except the commander, Gen. Toledos and his officers who were liberated. This latter step is very suspicious and the public is clamoring for an investigation into the behaviour of the officers. Matters have come to look serious. The insurgents have shown much vigor and determination, appearing suddenly where least expected. Maximo Gomez in person, is said to be far advanced in the jurisdiction of Colon. Rumors not without foundation speak of heavy desertions among the Spanish troops who are exposed to privations and misery whilst a great many officers who walk the streets of Havana appear to be living well. It is said that the government intention is not to harass the troops any longer but to garrison all places and use the soldiers to arrive from Spain to protect all the estates during the next crop. This policy would only increase starvation and strengthen the insurgents whose cause would gain immensely by another fruitless winter campaign.

SAN FRANCISCO, Oct. 5.—Shortly after noon to-day, E. Payson Knapp was found dead in his bed at his lodgings, No. 538, Jessie street, with a pistol ball through his head. A committee was appointed after much discussion to collect funds and place them at the disposal of the State Central Committee.

Burglary.

SAN FRANCISCO, Oct. 5.—A couple of transactions recently reported to have taken place here furnish food for considerable interesting conjecture. It was recently given out by the powers that be in Republican circles that no assessment would be levied on officials for campaign purposes. On top of this the *Daily Herald* (Democratic) had an article, on Monday last, to the effect that the officers and employees of the custom house, appraisers' stores and postoffice had each received a written request from the Republican central committee to call at the office of Edson & Hughes, custom house brokers, in the old Merchants' Exchange building, Battery street, and pay up a certain per centage of their respective salaries for the good of the party, and that many had done so, though, in order to make it easy for the boys, they had been allowed to deposit only half of their assessment, the balance being left to come out of next month's salary. Last night some parties unknown, effected an entrance into Edson & Hughes' office through the windows and attacked the safe, which was an ancient and crazy affair, offering little difficulty to burglariously-disposed parties, and took from it some six hundred dollars in coin. The burglars were evidently thoroughly familiar with the premises, and knew what they were after and where to find it. Conjecture is rife as to the possible connection of the reported payment of the assessment to Edson & Hughes and the subsequent robbery of their premises. The theory is broached that the burglars were after the Republican campaign cash, and that alone.

Republican Meeting and Torchlight Procession.

NEVADA.

Con Virginia Mining Co. Sued for Taxes.

VIRGINIA, Oct. 5.—The Con Virginia mine being delinquent $122,000 for bullion tax for the past quarter, to day the county commissioners authorized Lewis & Deal, attorneys, to sue the Company for the amount and take the case to the supreme court of the United States as soon as possible. Their fee is to be $7,000. It is expected that the next legislature will reimburse the county for the expenses of the suit.

Fire.

RENO, Oct. 5.—About 3 o'clock this morning an alarm of fire was given, and in less than half an hour the whole populace was astir. The flames were issuing from the rear of Jacob Graff's bakery, on Commercial row. Before the alarm was sufficiently understood, the flames had completely enveloped the bakery building and extended to the roofs of the building adjoining. The fire department was promptly called out and was soon at work. The Central Pacific yard engine, No. 48, was also promptly on hand and did good work in smothering the flames. About 4 o'clock the fire raged furiously, and Commercial row, from the corner of Virginia street to the brick building of Jamison and Prescott, was a roaring mass of flames, and it seemed as though a larger portion of the town would be swept away, but there was not a breath of wind, and the fire was got under control, and at 5 o'clock all danger of a disastrous conflagration had passed. The wooden buildings of Graff and Eblar and Hall, situated alternately between the bricks of Manning & Duck, Chielevich & Jamison, and Prescott, were the only ones totally destroyed. The losses, as near as can be ascertained, are as follows: J. Graff, building and stock; loss not estimated, insurance, $1,500. Prescott's loss $5,000, insurance, $1,000. D. A. Bender & Co., loss $100. E. Chielevich & Co., loss $300. W. Bergman, Reno drug-store, loss $2,500, insured for $1,000. Fannel hall, and Geo. Cunningham's fruit and grocery store; loss, $4,000; insurance, $2,000. S. M. Jamison, damage to roof, $10. Jacob Prescott, dwelling in rear of his store, with furniture, loss, $1,200, insurance light. Manning & Duck, outside fixtures; loss $1,000. J. F. Cook and Fire and Water Co., loss $200. Judge Marshall, building, $1,500, no insurance. A man named Boyler, employe of Mr. Graff, was burned. His charred remains were dug out of the debris this afternoon. No other casualties.

The Spanish editors had only a very vague idea of Boss Tweed and his history. The New York *Herald's* Madrid correspondent says:

Some of the papers had the name "Twed," others "Tuild," others "Tweed." Some said he was a *secuestrador*—i. e., a brigand of children—that is, a kidnapper; others that he was a large government defaulter. The ludicrous statement about Mr. Tweed being a "secuestrador of children" seems to have arisen from the caricature in *Harper's Weekly* of July 1.

The committee on fire and water in the Salem council have reported adversely on the petition of Tiger Engine Co. No. 2, for the purchase of a steam fire engine.

LEGISLATIVE NOTES.

QUACKS MEDICAL AND QUACKS LEGISLATIVE—THE PENITENTIARY BILL—A VICTORY FOR THE WOMAN SUFFRAGISTS.

[FROM OUR SPECIAL CORRESPONDENT.]

SALEM, Oct. 5, 1876.

The present outlook in the business of lawmaking is not nearly so encouraging as the authors of many of the various measures before the two houses of the assembly would like to see. In fact so far there have been no very important matters sprung, but upon which there is a wide difference of opinion among the members, and while there are at least a few things which nearly all admit need to be legislated upon, the task of marshaling a sufficient number of votes upon any particular method of their accomplishing them seems to be in most cases difficult of accomplishment. This was illustrated in the House on Tuesday afternoon on the third reading of

HOUSE BILL NO. 36,

Being an act to regulate the practice of medicine and surgery in this State. Nearly all agreed that something ought to be done to check the tide of quackery setting in so strongly in this land, and throw the safeguard of the law around the health and lives of the people. The bill provides simply that all graduates in medicine who practice shall keep their diplomas exposed in their office or place of business. Those not graduates, but who practice medicine, shall keep exposed in their office or place of business a placard, fourteen inches square, with the words "I am not a graduate in medicine" printed thereon in plain Gothic type not less than one inch in length. The penalty affixed to the violation of the above provision subjects the offender to a fine, not less than $200 and more than $500, or imprisonment, or both fine and imprisonment. The same penalty attaches to any party, who is not a graduate in medicine, convicted of prefixing the letters or title "Dr." or "M. D." to his or her name. The bill, it is true, is rather severe on those who essay the medical profession without the necessary diploma; but the men who have spent years of study and toil to acquire a knowledge of their profession merit the passage of such a law; the interest of the people whose lives and health are at the mercy of the physician, to whose skill they must confide, demand the passage of this or some similar enactment. The lower house of the Legislature would have passed the bill but for the parliamentary tactics of the minority, who have managed so far to stave it off, notwithstanding the majority is clearly in favor of it, and this minority may yet kill it entirely, a thing we should be sorry to see done.

THE PENITENTIARY BILL.

Very early in the session Senator Lee introduced a bill for an act providing for the leasing of the penitentiary buildings, apparatus and convicts to J. H. Hackleman, W. C. Griswold, David McCully and R. A. Ray, for the term of fifteen years, the State paying them for the keeping of the present number of convicts the sum of $12,000 per annum and a proportionally larger amount for an in[illegible] number, and though the bill has been amended in several respects we believe the main features of the original as above cited are preserved. A hasty examination rather leads us to regard this measure as an inexpedient and unwise, if not dangerous, experiment for the State to try at this time. That the keeping of the convicts under existing arrangements, is very expensive to the State, and that it grows no less from year to year, are truths, but it certainly seems that if the institution is as is stated in the message of his excellency, "by degrees becoming self sustaining," some way might be devised by which a state of self-support might be more nearly reached within the long period of fifteen years.

CONSTITUTIONAL AMENDMENT.

The House convened at 7 o'clock Wednesday evening, having under consideration as the special order for the hour the following resolution reported by the judiciary committee:

Resolved by the House of Representatives and Senate of the State of Oregon, a majority of all the members elected to each House concurring, That the following article as amendment to the constitution of the State of Oregon be proposed and referred to the next legislative assembly, and if said article shall be concurred in by a majority of all the members elected to each House thereof and shall afterward be ratified by a majority of the electors of the State, then the same shall to all intents and purposes, be a part of the constitution of the State of Oregon.

ARTICLE I. That section 2 of article 2, of the constitution of the State of Oregon, be and the same is hereby abrogated and in lieu as follows:

In all elections not otherwise provided for by this constitution, every citizen of the United States of the age of twenty one years and upwards, shall have resided in the State during the six months immediately preceding such election, and every person of foreign birth of the age of 21 years and upwards, who shall have resided during the six months immediately preceding such election, and shall have declared his or her intention to become a citizen of the United States one year preceding such election conformably to the laws of the United States on the subject of naturalization, shall be entitled to vote at all elections authorized by law.

The resolution and article were read.

McBride moved that resolution be adopted.

Butler moved to lay the motion to adopt on the table. Motion to lay on the table lost; years 12, nays 41.

Rosa moved a call of the House, which motion prevailed. The roll was called, 9 members absent. A motion for a further call of the House was voted down. Every other motion was a motion to adjourn.

The House and large audience was then addressed by Messrs. Fenton, Haines, Lawrence, Fidler, Chambers, Ferguson, Tozier, Payton and others. All these took ground in favor of the resolution, except Mr. Fidler, who opposed it in one of the wittiest, most elegant and classic speeches we have heard for a long time. Though favoring the resolution, Messrs. Fenton, Ferguson and Chambers were strongly opposed to woman suffrage.

Fenton supported the resolution because he believed in the rule of majority, and if a majority of the people of the State wanted women to vote he was willing they should have the opportunity to say so. Ferguson supported the resolution to get rid of the importunities of certain individuals who were eternally interfering with the regular business of the Oregon legislature something after the manner of the woman who married the persistent suitor to stop his cloying entreaties. He would only favor woman suffrage if by it he could abolish negro suffrage. Chambers, whose support was only partial, said he was driven to it by the fear of being burnt in effigy by the women of Benton.

Lawrence and Haines, two bedrock Democrats, very eloquently advocated the adoption of the resolution, the latter especially, also expressing a strong devotion to the principle of the woman suffrage party. Rosa, of Coos, appeared to be opposed to the resolution, but his opposition seemed more apparent from the many dilatory motions he made than from his arguments in defense of his position. Tozier sustained the resolution on the principle that it was right, and would support the article with equal heartiness. The evening session closed at about 10 o'clock, without having accomplished anything or arriving at any conclusion upon the resolution, hence the omission of the proceedings in your regular reports. This morning the resolution was again taken up and further advocated by Cheesman in quite an eloquent speech, and opposed by Staat, in his usual style, after which the resolution was adopted by a vote of 32 yeas to 25 nays; absent, Cochran, S. Smith and Will. All the Republicans voted aye except Grubbe and Kirkpatrick. The Democrats who voted aye were Cheesman, Ferguson, Fenton, Haines, Lawrence, Rackman, Stannard and Sumner. The adoption of the resolution was greeted with applause.

THE FACTIOUS OPPOSITION

To a great many measures that come before the two houses is quite unaccountable on the supposition that all the members are working for the interests of the State. On questions which do not affect the State finances or the rights of private persons as a general rule, there ought to be less of this "sharp practice" and the business of the session would be greatly expedited. There are some members who seem to think that the display of a smattering of parliamentary knowledge makes a statesman. We may mention the names of some of those whose knowledge of statesmanship is all derived from some work on parliamentary law, in another letter.

MILWAUKIE ALIVE FOR HAYES AND WHEELER.

TO THE EDITOR OF THE OREGONIAN:

Not having seen anything in the papers in regard to our quiet town, I send you the following account of our Hayes and Wheeler Club. The Republicans of this place a few weeks ago seem to have just found out that Hayes and Wheeler had been nominated for the presidency and vice presidency of the United States by the Republican party. After satisfying themselves that such was really the fact, the old party spirit came back to them, and immediate steps were taken to organize a Hayes and Wheeler club. They met in the commodious school house at 7 o'clock P. M., Wednesday, and although the evening was not as pleasant as one could have wished, there were at least a dozen stout-hearted Republicans responded to the call. What was lacking in numbers was made up in principle. They organized a club, elected J. H. Lambert president and W. A. Luelling secretary. All the wheels of the club being properly adjusted, the president pronounced the club to be in good trim and running order.

Speaking now being in order, Judge J. K. Wait, J. H. Lambert and others made short addresses.

We have gained strength from the first night, and are now quite a respectable club, and are still growing. As our club is not composed of speakers, we propose to procure some of your Portland orators, who are said to emit brilliant light to penetrate the darkest corners of the Democratic party, and bring to view some of the secret workings of that party, and especially of that renowned reformer (?) who would like to preside over this Union. We are utterly opposed to Mr. Tilden occupying the White House, and shall use our influence to prevent it.

At our last meeting Mr. W. S. Failing presented our club with a fine portrait of Mr. Hayes, our next President in prospective.

FRIDAY MORNING OCTOBER 6 1876

HAYES AND HIS PARTY

Senator Booth remains in Indiana till after the election next Tuesday when he will return to California to participate we presume in the campaign in that State Booth was the leading spirit of the Independent movement in California The watchword of his campaign was Civil Service Reform and a pure public service A Republican of the olden time a Republican, therefor, from principle, he placed himself in opposition to the party because the party failed to keep upon the high ground of its first organization, but passed into the hands of machine politicians and adopted the machine methods The nomination of Hayes, a man of true, old time Republican principles and practices, inspired a hope that the day of deliverance had dawned, and his noble letter of acceptance, leaving the platitudes and generalities of his party's authoritative utterances in the obscurity of a total eclipse, and bringing the issue of civil service reform at once to the forefront of the contest, brought also to the forefront the leader of the Independents One need only remember his campaigns in California, to imagine with what earnestness he is laboring for the success of Hayes He works with the zeal and the efficiency of one whose conscience is enlisted and whose energies are all aroused to their utmost power All the papers from that quarter, speak of his efforts as those of a giant

Carl Schurz, led by exactly the same circumstances, is striking herculean blows for the cause of Civil Service Reform and sound currency, which are represented by the candidates of the Republican party. He hesitated after the Cincinnati Convention, saying he knew enough of political parties not to build too high hopes on the declarations of their platforms, he would wait and see what stand Hayes would take—what platform he would make for himself And when Hayes planted himself unreservedly upon the high ground of personal qualifications and personal responsibility for official service and turned his back upon the whole system of political spoils, at the peril of a bitter opposition from the rabble of politicians of all parties, his manly declaration was answered by the echoes of Schurz' voice rallying the independent and the lukewarm to the Republican standard

And who are carrying on the campaign in California, where the Independents were stronger than in any other State? A glance at the San Francisco papers will furnish an answer to the question. The State Central Committee have sent out into the field such men as John F. Swift, M. M. Estee, Governor Pacheco, and others whose names are prominent in the Independent organization, and these men are bearing the burden of the canvass.

We are told by the Democrats that Hayes, if elected, will forget all his promises of reforming the civil service, and will be run by the machine politicians just as Grant has been run by them, that he will not have the strength to withstand the pressure to which he will be subjected by his party, and all that. No reasonable person expects the election of Hayes will usher in the millennium There will be dishonesty in the public service as there always has been, though we trust a less amount of it But Hayes, we have a right to expect, will stand by his pledges and by the reputation his past life has made for him, and refuse to grant the offices to Senators to be used by them as rewards for the services of their henchmen He will make fitness for the office the test, so far as it is possible for him to take cognizance of the personal qualification of persons for whom appointments are asked He will refuse to remove faithful officers on demand of Senators or other politicians, who present no complaint of official misconduct or negligence These things he can do, and it will be his own fault if his party prevented him from it. For who are his party? The anti reform Republicans? True, they are generally supporting him, though some of them, it must be confessed, in a way which is not calculated to help him very much, but his support comes quite as much, and certainly quite as earnestly, from the anti-ring Republicans, and the Independents, who give him their unanimous support mainly because of the good work they expect he will do in breaking down the spoils system They commit him more and more to the pledges of his letter every day, when they lead the columns of his supporters with the banner of civil service reform waving over them Are these not to be reckoned as a factor in the influences that will tend to shape the course of Hayes' administration? Are we to assume that because they are not likely to hang about the portals of the White House and waylay the President with importunities for official place, they are to be ignored? Hardly There will be, then no such solid party pressure to be resisted as the pessimists would have us believe Hayes has the character, the conscience, the purpose and will of a reformer, and he will have the backing of a strong party There should be no fears as to his course

CAUGHT IN A DIRTY BUSINESS

Some time since a story was put in circulation through the Washington correspondents of the various Eastern papers to the effect that Carl Schurz had been snubbed by the Republican National Committee, and that his engagement to canvass Ohio for Hayes and Wheeler had been cancelled by Mr Chandler chairman of the committee The story was credited, from the fact that it appeared simultaneously in both Democratic and Republican papers A coincidence so remarkable, it was naturally assumed must be something more than a coincidence it must be founded in truth And yet Mr Chandler on being inquired of touching the facts, stated positively that there was no foundation whatever for the report; President Grant, who was credited with inspiring the action of the committee in the premises, declared he had never so much as thought of such a thing till he saw it stated in the papers, and the Republican leaders in Ohio stated that so far as they knew nothing of the sort had ever been meditated and that the organization in that State was on the most cordial terms with Mr. Schurz This series of authoritative disavowals and protestations of course set curious people to wondering how it happened that all the leading papers of the country of both parties should have become possessed of the story at the same moment and the Herald set about tracing it back to its origin The result is a discovery that places the recognized organ of the anti reform Republicans, the Washington National Republican in no very enviable light before the world It appears the story was invented in the office of that paper and quietly put into the hands of the representatives of each of the leading papers of the country is a fact known to only a few and for that reason the more to be desired by the correspondents who are always on the qui vive to get exclusive hold of the freshest items The motive of the National Republican crowd in putting this scandalous falsehood afloat may be inferred, from the fact that that paper has been unsparing in its abuse of Schurz for some time past on account of his criticising the administration, and that it was greatly chagrined at his being engaged to speak for Hayes Its being caught in this contemptible business places the misnamed Republican in exactly the right light. Other decent journals should take pains to give it the benefit of a thorough advertising, as the Herald is doing

Mr Chambers, Representative from Benton county, is anxious to know something about the money in the hands of the State Treasurer That officer has thus far failed to make the report of his department which should have been presented at the beginning of the session and Mr. Chambers naturally enough wants to know whether his cash box will confirm the report of the Secretary of State as to balances on hand. We hope Mr Chambers will not allow the matter to rest till he gets the desired information for there are a great many other citizens of the State who would like to be informed of the exact status of affairs in Mr Treasurer's vaults and the prospect is they will never find out if they have to wait for an official report. Success to you Chamber the money in that safe or which ought to be there, belongs to the people of Oregon and they have a right to know all about it

Each of the Great Powers wants Constantinople, and would take it from the Turks in short order but that the other powers would unite to prevent it The Turks would be driven from Europe without any consideration for their rights but for the impossibility of agreeing who shall take what they leave. The desire of the Great Powers for the possession of Constantinople is sure to bring on a great war sooner or later, and as it would be a good thing to expel the Turks from Europe and give their territory to a more enlightened people, the sooner the inevitable contest comes off the better.

One of the good things expected of Attorney General Taft's famous order has come to pass in the quietude of the election in Georgia The object of that order was not to prevent a fair election but to make an unfair one impossible None but those who intended to hinder legal voters from coming to the polls found anything to complain of in the Attorney General's order, just as none but those desirous of committing crimes find fault with penal laws

Wonder has been expressed as to what became of the large numbers of troops continually sent to Cuba from Spain, the telegram from Key West published to-day, which states that many of the government troops are deserting to the insurgents may throw some light on the cause of their disappearance It is certain that they have not been killed in battle and it is not likely that very many have died of disease, hence it is probable that they have deserted

Mr Vanderbilt is said to be of the opinion that the blowing up of the reef at Hallett's point, while a splendid exhibition of engineering skill, will be of no practical use He is reported to have said "It'll never be worth a cent," "The fogs and rocks of the Sound make navigation dangerous for large vessels and they'll prefer coming by way of Sandy Hook"

Since the meeting between Dr Baily of Washington and Dr Watts, Republican candidate for elector, which took place at Hillsboro last Saturday, the Democrats of that county, it is said, are willing to stand the soda water in favor of any person who will agree not to mention politics in their presence till after the November election

RUPTURE!

No More Metallic Trusses Used!
No More Suffering from Iron Hoops or Steel Springs!

THE SUPERIORITY OF OUR ELASTIC Trusses over the rigid Iron Hoops which in former days were the only resource of the ruptured admits of NO ARGUMENT

By means of this appliance the pressure on the Rupture itself can be made uniform and continuous and to the extent required in each case until a slight inflammation of the parts is secured and the consequent effusion of lymph which is essential to a healing process and from this time to the conclusion of the treatment the pressure, being entirely within the control of the patient, can be lessened daily as the adhesion progresses and the body becomes sound All cases of reducible Hernia are permanently relieved without regard to the age of the patient or the duration of the injury while in its action it is wholly free from all the cruelty that has characterized the treatment of the malady with tortuous Metal Trusses from the earliest age to the present day Your attention is called to the following facts

1st—There are no springs to press upon or to injure the back

2d—It is simple in construction and not liable to get out of order

3d—This instrument is worn with perfect ease while riding horseback

4th—The rupture is retained and the pressure the same while in any position

5th—It has none of the injurious results of metallic Trusses

6th—It will perform radical cures when all others fail

7th—It is worn with ease and comfort night and day which cannot be said truthfully of any metal Truss whatever

Experience shows that all tempered springs used as a means of pressure upon and often disease parts of the body that before were in a perfectly healthy condition Lumbago and other equally distressing ailments are not unfrequently the outgrowth of such pressure and in view of this fact it becomes a matter of decided consequence to avoid like calamities if possible

Examination Free. The closest scrutiny of physicians solicited

NOTES FROM ALBANY

Our regular correspondent, writing from the above place under date of the [illegible] sends the following

This city is second only to the metropolis of this Northwest--quite inland and yet most beautiful and attractive to strangers and homelike to those who have seen its rise and progress It is situated on the east side of the Willamette river just as one might expect it to be located on a beautiful prairie or plateau which declines towards the river just enough to give it proper drainage

This place though inland as it is with its almost 4 000 inhabitants with the river and its steamboats on the one side the railroad on the other side its numerous stage routes and surrounded with the finest wheat country in the State is already a great center The Albany ditch some 14 miles in length in coming into the city ramifies so as to accommodate a large amount of machinery which gives employment to a great number of men

We find here quite a number of beautiful churches which display fine taste on the part of the people The various pastors work very harmoniously together just as might be expected in a community of this kind The Sabbath school interest is well looked after a large number of children and young people attending the various schools from Sabbath to Sabbath

There is one daily and two weekly newspapers published in this place which are ably edited and are well sustained by the people At the same time we are glad to see the OREGONIAN having a large circulation also in this part of the country

The numerous business houses immense warehouses hotels and the millions of bushels of wheat shipped from this place add greatly to its importance

We have been told that there are from ten to twenty lawyers in business here and perhaps almost as many physicians

The public schools are being graded by Prof Gilbert the superintendent and are being put in good shape

The Albany Collegiate Institute, located at this place is very prosperous under the management of Prof L J Powell formerly connected with the Willamette University The attendance is large for this time of the year and it is believed the school will be very full during the winter months Prof Powell, who is assisted by Prof Hewett and Miss Irvine is well known to the public as one of the best educators in this State--a man of great energy and indomitable in his efforts to build up and sustain the cause of education

The future of this place is already marked out Situated in an extensive farming region, with an intelligent and enterprising people as we find here, this must in time become a large and beautiful city The climate is delightful, free from the coast winds that are so common in some parts of this State which make it very pleasant to those who wish to settle down and enjoy life In short we look upon this as one of those corners in the world where a man can make a living very readily and with much greater ease than almost any where else on this coast

Gentlemen--I would report that I have made an analysis of your three brands of Noble Whisky distilled by you at Cincinnati, viz

And find the same to be free from any deleterious substance and particularly free from that very objectionable substance fusel oil, showing that great care has been taken in their manufacture

CYRUS NOBLE DISTILLERY, 1st Dist., O.

CINCINNATI April 1 1876

Messrs LILIENTHAL & Co

Gentlemen--I have just returned from a trip through Kentucky Ohio and West Virginia, undertaken for the purpose of examining the various distilleries in those districts, and I am now more than ever confirmed in the opinion, so often expressed to you that your distillery is the most complete and best conducted of any in the United States

The careful selection of your grain, the purity of the water the slower and more cautious method of distillation is what gives the NOBLE WHISKY its superior qualities, and has gained for it the reputation which it universally sustains throughout the United States.

Gratified that the 20 years devoted to the distillation of the CYRUS NOBLE WHISKY, has been attended with such happy results, I trust I may be spared to continue my labors in its interest, and that of its many patrons and consumers.

I am, Gentlemen,
Yours faithfully,
CYRUS NOBLE.

TO THE PUBLIC.--The great reputation which our Cyrus Noble Whisky has enjoyed in medical practice throughout the Eastern States and Europe for a period of nearly 25 years, prompts us to bring it to the notice of the Public of the Pacific Coast for similar use

Its absolute purity, having by analysis been found to be entirely free from FUSEL OIL, and the improved quality imparted to it by its being retained in store for at least from 5 to 6 years after distillation, has given to the Physician a remedy long sought for in his own Materia Medica.

The certificates we hold of its efficacious use in the treatment of cases where NERVOUS PROSTRATION exists and vitality is at a low ebb, as is frequently observed in fevers endemic to our country, of DYSPEPSIA, with its whole train of gastric troubles, of diseases of the LIVER and the BLADDER, of CONSUMPTION affording effective and ready relief to the afflicted victim and of putrescent diseases or blood poisoning, resulting in its use as a disinfectant the sufferer from premature death are all highly gratifying to us, and, we believe we owe it to our numerous patrons on the coast to use every endeavor to introduce it here

Very respectfully,
LILIENTHAL & CO.

Wheat only 80 cents at Dayton, W. T.

The smallpox is said to be prevalent in the neighborhood of Colfax.

Syrup from sorghum is being extensively made in the Walla Walla valley this season.

William Curtis, who resides near Dayton, had his leg broken by a wild steer jumping on him.

A subscription of some $800 has been raised at Snohomish toward the erection of a Presbyterian church.

The Duwamish river race track [illegible] has been leased by John W. P[illegible]ncll to W. [illegible] Pettyjohn for two years.

Twenty seven thousand bushels of wheat are in the warehouses belonging to Paine Bros., Dayton, W. T., awaiting shipment.

Dr. Blalock has already plowed about 3,000 acres of land near Walla Walla, and will have before the winter is over 4,000 acres of wheat sown.

Nine thousand pounds of timothy seed will be shipped by the *Dakota* this week to San Francisco. It was raised on the Snoqualmie this year.

Walla Walla merchants are receiving immense freights of merchandise. It is supposed that the [illegible] of up freight this fall will be nearly one-third. This is owing to the great increase of immigration.

The Walla Walla valley and the Snake river country is becoming somewhat noted for raising flax seed. The past year there has been about 75,000 bushels raised, 60,000 of this was raised in the Snake river country and 15,000 in the Walla Walla valley. The Pioneer Oil Company, at Salem, Oregon, furnished the seed and take the crop at 2 cents per pound. J. O. Patterson is agent for the company.

Mr. Levi Leland, G. W. C. T., organized a lodge of Good Templars at Lewis river, Oct. 3d to be known as La Center Lodge No —, with twenty-two charter members. 940 Acres four miles southeast of [illegible] of the railroad with Mill creek running through it. This is the choicest farming land in Marion county with fine springs consisting in part of the old Rector donation claim on which I raised the past year fifty bushels of wheat and three tons of timothy per acre. The first crop of oats ever raised on part of this land measured ninety four bushels per acre grain weighed and ground chained by Mr Alfred Stanton of Salem.

4,200 Acres of prairie and light brush land with timber for running purposes. bounded by the Willamette River for four miles, beautiful lake on the east. bottom lands all along the river commencing four miles north of Salem—all choice grain land—the largest and most suitable body of land to be found in the Willamette Valley to be purchased by a colony. To be sold from $15 to $25 per acre. This land will all be immediately resurveyed and can be sold in larger or smaller parcels, to suit purchasers. It can be subdivided to the best possible advantage and I can offer any person or persons or colony of persons desiring to purchase homes in the best part of the Willamette Valley, near the city of Salem and within reach of the best social advantages as well as most favorably located with respect to markets, greater advantages, on more favorable terms than they can ever expect to realise again.
